Revision Number:01

## 1.IDENTIFICATION

**Product Name** FLUONOX® LT PEROXIDE  
**Synonyms** KR621PLT, KR641PLT  
**Recommended Use** Manufacture of Rubber Products  
**Uses Advised Against** No further relevant information available

### Details of the Supplier of the Safety Data Sheet

#### **Company**

Gujarat Fluorochemicals Ltd.  
 12/A Dahej ,GIDC, Industrial Estate  
 Dahej, Gujarat 392130, India  
 Telephone +91-2641-618031 (Admin)/618086-87 (Security)  
 E-mail address [contact@gfl.co.in](mailto:contact@gfl.co.in)

### Emergency Telephone Number

**Emergency telephone number** +91-2641-618080-81 (SHE)/ 618086-87 (Security)

## 2.Hazard(s) Identification

### GHS classification in accordance with 29 CFR 1910.1200

Not a hazardous substance or mixture.

### GHS Label elements

Not a hazardous substance or mixture.

### Hazards not otherwise classified (HNOC)

No additional HAZARD information available

## 3. Composition/information on Ingredients

| Chemical name   | CAS-No     | Weight % |
|---|------------|----------|
| Ethene, tetrafluoro-, polymer with 1,1-difluoroethene and trifluoro(trifluoromethoxy)ethene | 56357-87-0 | 100      |

Creation Date 17-October-2023

Revision Number:01

## 4. First aid measures

### First-aid measures

|                     |   |
|---------------------|---|
| <b>Eye contact</b>  | Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. If irritation still persists, call a poison control center or doctor for treatment advice. |
| <b>Skin contact</b> | Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. If skin irritation or rash develops, get medical attention.   |
| <b>Ingestion</b>    | If swallowed, DO NOT induce vomiting. Get medical attention if irritation develop or persists.  |
| <b>Inhalation</b>   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, give oxygen. If signs/symptoms continue, get medical attention.   |

### Most Important Symptoms and Effects, Both Acute and Delayed

**Most Important Symptoms and Effects** The most important known symptoms and effects are described in labelling (See section 2) and/or in section 11.

### Indication of immediate medical attention and special treatment needed

**Notes to physician** Treat symptomatically and supportively.

## 5. Fire-fighting measures

### Extinguishing media

|                                       |   |
|---------------------------------------|---|
| <b>Suitable extinguishing media</b>   | CO <sub>2</sub> , Regular dry chemical, Alcohol-resistant foam, Water spray           |
| <b>Unsuitable extinguishing media</b> | None Known. Choice of extinguishing media should take into account surrounding areas. |

### Special hazards arising from the substance or mixture

|                                      |   |
|--------------------------------------|---|
| <b>Special Hazard</b>                | Thermal decomposition can lead to release of toxic/irritating gases and vapor. Exposure to combustion products may be a hazard to health. |
| <b>Hazardous combustion products</b> | Hydrogen fluoride, Carbonyl fluoride, Low molecular weight fluoropolymers and Particulates, Carbon oxides                                 |

### Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand (SCBA), MSHA/NIOSH (approved or equivalent) and full protective gear. Keep storage containers cool with water spray. Move container from fire area if it can be done without risk. Cool containers with water spray until well after the fire is out. Do not scatter spilled material with high-pressure water streams. Stay away from the ends of tanks. Apply water from a protected location or from a safe distance. Avoid inhalation of material or combustion by-products.

### NFPA Ratings

|               |                     |                    |                        |
|---------------|---------------------|--------------------|------------------------|
| <b>Health</b> | <b>Flammability</b> | <b>Instability</b> | <b>Physical/Hazard</b> |
| 0             | 1                   | 0                  | N/A                    |

Creation Date 17-October-2023

Revision Number:01

Hazard Scale: 0=Minimal 1=Slight 2=Moderate 3=Serious 4=Severe

## 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

#### **Personal Precautions**

Wear personal protective clothing and equipment, see Section 8. Avoid contact with skin, eyes and clothing. Keep unprotected persons away. Do not eat, drink or smoke while using this product. Stop the spill, if possible, Remove all sources of ignition. Keep people away from and upwind of spill/leak. Use respiratory protective device against the effects of fumes/dust/aerosol. Contain spilled material by diking or using inert absorbent. Transfer to a disposal or recovery container. Avoid release to the environment

#### **Environmental precautions**

Prevent from reaching lakes, streams, ponds and sewer drains. Dike to confine spill and absorb with an absorbent such as clay, sand or soil. Local authorities should be advised if significant spillages cannot be contained.

### Methods and material for containment and cleaning up

#### **Methods for containment**

Sweep up or vacuum up spillage and collect in suitable container for disposal. Place in a suitable, labelled container for waste disposal. In case of large spill, dike if needed. Keep in suitable, closed containers for disposal. Wash area and prevent runoff into drains. Local authorities should be advised if significant spillages cannot be contained.

#### **Reference to other sections**

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

## 7. Handling and Storage

### Precautions for safe handling

#### **Handling**

Wear suitable personal Protective Equipment when handling and spraying. Avoid contact with skin and eyes. Minimize dry sweeping to avoid generation of dust clouds. Minimize airborne dust and eliminate all ignition sources. Do not breathe dust/fumes/gas/mist/Vapours/spray. Ensure adequate ventilation. While using do not eat drink or smoke. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using toilet or applying cosmetics. Handle in accordance with good industrial hygiene and safety practice.

### Conditions for safe storage, including any incompatibilities

#### **Storage**

Store in original container. Keep containers tightly closed in a cool, well-ventilated place. Store locked up. Do not store material near food, feed or drinking water. Keep away from heat and sources of ignition. Store away from incompatible material.

#### **Incompatible materials**

Avoid storage with strong oxidizing agents

Creation Date 17-October-2023

Revision Number:01

## 8. Exposure Controls/Personal Protection

### Exposure Guidelines

| Component   | CAS Number | ACGIH | OSHA PEL | NIOSH IDLH |
|---|------------|-------|----------|------------|
| Ethene, tetrafluoro-, polymer with 1,1-difluoroethene and trifluoro(trifluoromethoxy)ethene | 56357-87-0 | -     | -        | -          |

#### Legend

ACGIH - American Conference of Governmental Industrial Hygienists

OSHA - Occupational Safety and Health Administration

NIOSH IDLH: The National Institute for Occupational Safety and Health Immediately Dangerous to Life or Health

TEEL: Temporary Emergency Exposure Limits

#### **Engineering controls**

Ensure adequate ventilation, especially in confined areas. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

#### **Personal protective equipment**

##### **Eye/Face Protection**

Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.

##### **Skin and body protection**

Wear impervious protective clothing, including boots, gloves, apron or coveralls, as appropriate, to prevent skin exposure.

##### **Respiratory protection**

General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators. Protection provided by air purifying respirators against exposure to any hazardous chemical is limited. Use a positive pressure air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstance where air purifying respirators may not provide adequate protection.

##### **Hygiene Measure**

Do not eat, drink or smoke when using this product. Keep away from food, drink and animal feeding stuffs. Wash hands before breaks and immediately after handling the product. Remove and wash contaminated clothing before re-use. Handle in accordance with good industrial hygiene and safety practice.

## 9. Physical and Chemical Properties

### Information on basic physical and chemical properties

|                       |                          |
|-----------------------|--------------------------|
| <b>Appearance</b>     | Solid                    |

## 10. Stability and Reactivity

### Reactivity

No further relevant information available.

### Chemical stability

No decomposition if used and stored according to specifications. Stable and hazardous polymerization will not occur

### Possibility of hazardous reaction

Hazardous polymerization will not occur.

### Conditions to avoid

Wear suitable personal Protective Equipment when handling and spraying. Avoid contact with skin and eyes. Do not breathe dust. Ensure adequate ventilation. While using do not eat drink or smoke. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, using toilet or applying cosmetics.

Creation Date 17-October-2023

Revision Number:01

## Incompatible Materials

No further information available.

## Hazardous decomposition products

Thermal decomposition can lead to release of toxic/irritating gases and vapors. Keep product and empty container away from heat and sources of ignition.

Hazardous decomposition products formed under fire conditions:

Hydrogen fluoride, Carbonyl fluoride, Low molecular weight fluoropolymers and Particulates, Carbon oxides

## 11. Toxicological Information

### Information on Toxicological Effects

#### Acute Toxicity

#### Product Information

**Oral LD 50** Based on available data, the classification criteria are not met.

**Dermal LD 50** Based on available data, the classification criteria are not met.

**Inhalation LD 50** Based on available data, the classification criteria are not met.

#### **Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Irritation** Not classified based on available information

**Sensitization** Not classified based on available information

#### **Carcinogenicity**

| Component   | CAS number | IARC       | NTP        | OSHA       |
|---|------------|------------|------------|------------|
| Ethene, tetrafluoro-, polymer with 1,1-difluoroethene and trifluoro(trifluoromethoxy)ethene | 56357-87-0 | Not Listed | Not Listed | Not Listed |

**Mutagenic effect** Not classified based on available information

**Developmental effect** Not classified based on available information

**Tetragonality** Not classified based on available information

**STOT - Single Exposure** None Known

**STOT - repeated exposure** None known

**Aspiration hazard** No information available

**Symptoms/effects, both acute and delayed** No information available

**Endocrine Disruptor Information** No information available

**Other adverse effect** No information available

Creation Date 17-October-2023

## 12. Ecological Information

### Ecotoxicity

No data available.

### Component Toxicity

| Component   | CAS number | LC50 – Fish | EC50 – Daphnia | EC50-Alga |
|---|------------|-------------|----------------|-----------|
| Ethene, tetrafluoro-, polymer with 1,1-difluoroethene and trifluoro(trifluoromethoxy)ethene | 56357-87-0 | -           | -              | -         |

### Persistence and Degradability

No information available for product.

### Bioaccumulative Potential

No information available.

### Other Adverse Effects

No information available.

## 13. Disposal Considerations

### Waste Treatment Methods

#### **Waste Disposal Method**

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.

#### **Contaminated packaging**

Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. Transport Information

### DOT (US)

Not regulated as dangerous goods

### IMDG/IMO

Not regulated as dangerous goods

### IATA/ICAO

Not regulated as dangerous goods

Creation Date 17-October-2023

Revision Number:01

## 15. Regulatory Information

Safety, health and environmental regulations / legislation specific for the substance or mixture

### U.S. Federal Regulations

#### SARA 311/312 Hazard Categories

|                                   |    |
|-----------------------------------|----|
| Acute Health Hazard               | No |
| Chronic Health Hazard             | No |
| Fire Hazard                       | No |
| Sudden Release of Pressure Hazard | No |
| Reactive Hazard                   | No |

#### CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ

#### SARA 302 Extremely Hazardous Substances Threshold Planning Quantity

This material does not contain any components with a section 302 EHS TPQ.

#### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS TPQ.

#### SARA 313

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

### State Regulations

#### CALIFORNIA PROPOSITION 65

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.
